

CAGE CLAMPS

General Standard, Hydraulic and Ratchet Clamps for 2"- to 60"- diameter pipe. Each is hinged for easy positioning around the pipe and is available with flat (tack) or arched (no tack) crossbars.

General Standard 14" No Tack Clamp

The Standard Pipe Clamp features a lever and a cam to tighten the clamp around both ends of adjoining pipe. General Pipe Clamps are designed for aligning pipe ends while welding.

Part Number	Description
GNT04	Pipe Clamp 4" (101 mm)
GNT06	Pipe Clamp 6" (160 mm)
